There are some gaps in the recorded history and should anyone have more facts or the missing Badges, we would appreciate it if you could contact the Western Cape Heritage Centre secretarywc@scouting.org.za

We also have a record from a South African view point of the experience of attending an overseas [International Moot](#). Sourced from old reports, personal scrap books, photos and logbooks, the links provide a never before published account by the South African Rovers that were there to witness these Moots.
