

AVIATION SKILLS - SCOUTCRAFT BADGE

 Badge Introduced:
March 1994

 Requirements Reviewed:
March 2011

Small outline of this badge.

Note: *The activities used in this badge are to assist a scout in getting to understand the basic knowledge of what is required before a flight can take place.*

Requirements
Date Passed Signed

- | | |
|--|---|
| 1. Discuss the proper conduct to adopt and the ordinary safety precautions to follow, when on an airfield and when near an aircraft. | 1 |
| 2. Explain how to be of practical help to a pilot by indicating wind direction by day and by night and by keeping the landing strip clear. | 2 |
| 3. Make up a scrapbook containing at least fifty pictures of different aircraft collected by yourself. | 3 |
| 4. Recognise 90% of the aircraft in your scrapbook from silhouettes shown to you for ten seconds, 25% of the silhouettes to be head-on. | 4 |
| 5. Point out the principle parts of an aircraft and the control surfaces. Explain how they function. | 5 |
| 6. Explain the advantages and disadvantages of taking off and landing into the wind. | 6 |
| 7. Explain the aerodynamics of stalling. | 7 |
