

# Hiking Trails at Hawequas

Two hiking trails have been re-opened and clearly marked out at Hawequas, a 2km trail and a 4km trail (refer to map reduction). The 2km trail goes up past the Wardens house, offering spectacular views and an aerial view of the Ranch. It then goes down the front of the hill and ends on the road to the cottage. The 4km trail starts at the dam and goes up past our weir (out of bounds) to the very top of the tallest hill to the southeast of the main house, offering spectacular views, even as far as Table Mountain. It then descends towards Du Toits Kloof, and returns just above the Spruit River and ends in the pine forest next to the barn. Try these on your next visit.
